ManaTuner

MTG MANABASE CALCULATOR

Brand book · Edition 2.7 Mirror
Snapshot of manatuner.app · 2026-05-15

01 Identity

"The only mana calculator that counts your dorks & rocks."

ManaTuner is a free Magic: The Gathering manabase calculator. It computes per-spell cast probabilities accounting for lands, mana dorks, mana rocks, rituals, and acceleration. The visible interface combines a Material-UI component layer with parallel CSS variables, both shipped together.

i **Authenticity**
The mana palette is the canonical Wizards colour set — no pastelization, no desaturation.

ii **Knowledge tier**
The Library uses a blue→purple gradient normally reserved for high-tier products.

iii **Quiet UI, loud subject**
Cinzel serifs for headings, Roboto cascade for body, parchment ground for surface.

02 Colour

#F8F6D8	#0E68AB	#150B00	#D3202A	#00733E	#CBC5C0	#E9B54C

03 Typography

H1 **The only mana calculator**
Cinzel · 700 · 3rem · lh 1.2 · ls 0.02em

H2 **That counts your dorks & rocks**
Cinzel · 600 · 2.5rem · lh 1.3 · ls 0.01em

H3 **Castability & tempo, not just lands**
Cinzel · 600 · 2rem · lh 1.4

H4 Built for FNM grinders and PT qualifiers
Cinzel · 500 · 1.5rem · lh 1.4

Body Stop guessing. Get exact cast odds for every spell, plus know exactly when to mulligan — backed by hypergeometric math and Monte Carlo simulation.
Roboto · 400 · 1rem · lh 1.6

Mono `hypergeom.atLeast(succ=4, total=60, draws=7)`
JetBrains Mono cascade (not loaded → system mono)

Fonts loaded from the network

Roboto	300 / 400 / 500 / 700
Cinzel	400 / 600 / 700
Mana Font	1.18.0 (CDN)

Inter, Poppins, JetBrains Mono, Fira Code, and Playfair Display are referenced in cascades but not loaded — they fall back to the next item, ultimately resolving to Roboto or system sans.
