04 · PRINCIPLES

01
Authenticity over decoration

WUBRG is the canon. Never pastel-ize, never desaturate. The mana colours are signal, not flair.

02
Knowledge as premium

The Library uses gradients reserved for high-tier products. Math content carries its own visual weight.

03
Quiet UI for a loud subject

Sober chrome (Inter, Cinzel, parchment). Mana symbols and the WUBRG hero do the talking.

05 · WORDMARKS · LOCKUPS
